www.keshenthevan.com

I am a self taught web and blockchain developer with a burning passion for building web applications that run with blockchain technologies. Constantly looking to increase my skills in these areas. Eager to work hard and gain knowledge.

Skills

- HTML & CSS, Javascript
- JSON, AJAX
- React.js
- Truffle.js, Web3.js, Solidity

Portfolio

www.keshenthevan.com

My portfolio is a great way to see all the skills I have learnt and how I managed to implement them in projects.

Google search keshenthevan.com or simply scan the qr code to be direct to my website.

Education

Computer Science and Business Management

January 2020 - December 2021, University of the Free State

I did 2 years of Computer Science at the University of the Free State. Within the 2 years I mainly learnt coding in C# and the .net framework.

Responsive Web Design

January 2022, FreeCodeCamp

The course covered using HTML and CSS to make different projects. The goal was making responsive websites that respond to different devices.

Javascript Algorithms and Data Structures

February 2022, FreeCodeCamp

The course covered OOP and complex problems which required critical thinking to solve. It also covered Es6 and Regex.
